MONEY, BONDS AND STOCKS.

Moderate Activity in New York, with Lower Prices for a Majority of Stocks. NEW YORK, July 25 .- Money on call was easy at 1014 per cent., the last loan being made at 14 per cent.; closing at 14 per cent.

Prime mercantile paper, 4@6 per cent. Sterling exchange was quiet and steady at \$4.864 for sixty-day bills, and \$4.884 for de-

The total sales of stocks to-day were 267,328 shares, including the following: Canada Southern, 3,684; Delaware, Lackawanna & Western, 29,500; Erie, 5,735; Kansas & Texas, 3.110; Lake Shore, 4,510; Northwestern, 5,400; Northern Pacific preferred, 6,057; Reading, 9.750; Richmond & West Point, 9,300; St. Paul, 16,935; Texas Pacific, 5,300; Union Pacific, 14,-340; Western Union, 7,695; Wheeling & Lake Erie, 3,034.

The stock market to-day was again moderately active, but the advance received a set back, which, however, was slight in everything but a few stocks. The disposition to realize was very pronounced this morning, and the sales of "long" stock for account of the local operators foot up a very respectable total. London, however, was a free buyer, taking round amounts of Reading, Erie, Lake Shore, Union Pacific and Louisville & Nashville, but the buying was not sufficient to stem the amount of stock for sale at the figures. Reading was the feature of the day, and once more resumed its old place at the head of the procession, its sales for the day being considerably over one-third of the entire amount traded in. Besides the foreign pur-

chases in the stocks, there was a heavy demand, supposed to be from insiders. One well-known broker took as much as 8,000 shares and the purchases of several others reach up into the thousands. This demand served to advance the stock in the forenoon and held its price against the free offerings later in the day, while the other coalers sympathized with it, though no advances were made. Chicago was doing very little, though there was considerable pressure upon St. Paul and it yielded readily, while the other grangers were dull. The delay in the negotiations in the Richmond & West Point, East Tennessee, Norfolk & Western matter had the effect of restricting the trading in Southern stocks, and among the low-priced shares there was no feature whatever, fluctuations being narrow and unimportant. The opening was made with a firm tone, and the room continued moderately builish in tem-per; first prices were generally from \$ to \$ per cent better than last night's figures. Weakness developed immediately, however, with Reading in the lead in the transactions, but it remained firm, while declines ranging up to } per cent. were established in the general list in the first forty-five minutes. The market improved in tone after that time, but with the exceptions of Lake Shore and Ft Worth & Denver, the latter of which shot up 3 per cent, the movements were entirely insignificant and the animation disappeared from the list. The decline was then resumed, though Lackawanna led a slight reaction during the afternoon. The weakness was increased in the last hour, and the close was active and weak at or near the lowest prices. The active list is almost invariably lower this evening, but the only important de-clines were in St. Paul and Richmond & West-

point preferred. The railroad bond market was more active today, though the increased business was entirely due to the unusual animation in a few issues, and the Kansas & Texas sixes furnished \$197,000; Ft Worth & Denver firsts, \$188,000; Green Bay incomes, \$154,000; Reading general fours, \$139,000, and Texas Pacific seconds, \$134,000, out of a total day's business of \$2,077,000. One broker sold \$100,000 Reading fours on the call, almost all o which were taken for foreign account. The market was firm in the forenoon, but reacted later, and many bonds show declines this evening. Chesapeake, Ohio & Southwestern firsts rose 6, to 1104; New York & Northern seconds, 21. to 551; Kansas & Texas fives, 21, to 611. The declines included Richmond & West Point trust

CHICAGO. July 25 .- Wheat to-day made a net advance of 2 cents a bushel and closed at the top. The cereal was overdone by sellers yesterday, and the strong reaction to-day was helped on by good cables, buying by foreign agents, covering by a big crowd of little "shorts," and still further strengthened by a very large decrease in the amount on passage, both to the United Kingdom and the continent. The export clearances also favored the advance. With all these inducements to buy the price was quickly forced up about 2 cents over the closing price last night. Then came a slight reaction, subsequently recovered, and when closing time came the bulge was in full progress. The entire amount of wheat on passage has decreased about 5,000,000 bu in six weeks, and the decrease this week was 1,440,000 bushels. The clearances reported at Atlantic ports were 66,000 bushels, at New York 51,000 bushels, at Philadelphia, 72,000 bushels, at Baltimore a total of 19,000 bushels. The flour exports added give an aggregate of 310,000 bushels-quite a bull factor in itself. The net increase at Minneapolis was but 30,000 bushels, and the damage to crops in certain sections of the Northwest caused cash wheat to be firmly held in that market. The range in prices here was: August, 78% up to 80%, with a reaction to 79%; September, 78% up to 80%. Wheat at the close sold at the highest point for the session. August closed at 80%, or just 2 cents over the close yesterday. Corn did not react with the same strength as wheat. The conditions were not so favorable, nor was the selling of yesterday overdone to the same extent. The local receipts were up to the estimate, 280 cars, and the estimate for Thursday is the same round number, 280 cars. The out-inspection was light, 75,000 bushels. The charters were very liberal, but had no effect on closing prices. The outside advance for the day was le over the close yesterday, and the sustained advance at the close was fc for August, which month ranged 45tc to 46tc, closing at 46tc. Oats opened weak, and near futures sustained about to decline, but light receipts, reports of rain in the West and an improvement in the leading markets caused a firmer feeling to come over the market. The reaction carried prices 12 to over yesterday's closing quotations, but the market eased off a trifle, and closed without essential change. In the provision trade a quieter feeling was witnessed. Traders of all classes were disposed to restrict operations, and to give the market a trial of the strength which it appears to possess before branching out. Product all around was well supported, and for short ribs the closings were .024 @.05c, and for pork 24c higher than yesterday. Lard was unchanged, to .02 to lower. Short ribe again led in the trading. Quite a number of August trades in them were changed over to October, at a difference of .10c. The

INDIANAPOLIS MARKETS. Merchants Cheerful, Trade Improving, Collections Easter," Covers the Situation.

INDIANAPOLIS, July 25. The more common remark among merchants is that business is improving, collections easier, and the outlook for trade promising. Crop reports continue to be very favorable, especially the corn crop, which means a good hog crop and plenty of money for Indiana and the portions of Illinois and the Southwest which draw their supplies from Indianapolis. The strong tone, too, in prices to most staple articles is by no means an unfavorable feature of the business situation. Take dry goods; seldom is the fall trade aplines of goods. The Boston Advertiser says:

proached with so much firmness in prices on all Speculation fairly active. No. 1 hard, 92 #936 to b. and affoat; No. 2 spring, nominal, 89c; ungraded red, 82 #91c; No. 2 red, 90d; #91c tore and elevator, 912c f. c. b., 922c delivered; No. 2 red, 90d; #91c tore and elevator, 912c f. c. b., 922c delivered; No. 2 red, 90d; #91c tore and elevator, 912c f. c. b., 922c delivered; No. 2 red, 90d; elosing at 59c; September, 86d; #880c, Closing at 59c; September, 86d; #880c, Closing at 59c; September, 86d; #880c, Closing at 89c; September, 80d; *880c, Closing at 89c; September, 80d; *89c; September, 80d; *89c

prices materially, and only in this line are the packers doing much. Grocers are busy; prices firm. Sugare in light supply, and still advancing in their tendency. Coffees are steady, but not specially strong; distribution good, all things considered. The produce markets are active, eggs and poultry coming in liberally, with a weakening tendency in prices. Potatoes, with a falling off in receipts, are firmer in tone, but no higher; \$1.50 will buy a good potato, and \$1.75 per barrel a choice potato. Apples are blenty; but a small per cent, however, can be called good. There are too many small and partially decayed ones to make handling them profitable to the grocers. Peaches in abundant supply, prices ruling low. Berries scarce and higher in prices. There were no raspberries offered to-day, and but few whortleberries. Vegetables of all kinds plenty and cheap.

There was a fair attendance on 'Change today and bidding was fairly active. Wheat was in good demand, while corn and oats were dull and weak in tone. Track bids to-day ruled as
